

My name is Norma Quinones and I was referred to you by my Real Estate colleague Jonathan Stevens. I am looking for a Web Developer who can create a website for my business Savvy Interior Designs. Let me introduce myself, I am a small interior design firm with its own general contractor license. Savvy Interior Designs caters to discerning clients across the Monroe County region with award-winning service and innovative design.

With each project, I give dimension to my client's creative vision by producing unrivaled results that exceed expectations. I find joy in the small things, like demolishing worn, dated, or distasteful rooms into piles of rubble that rise from the ashes into gorgeous kitchens, bathrooms, and beyond.

I founded Savvy Interior Design Giving in 2018 after offering to make over a local teen's room who'd been diagnosed with cancer. The experience was so undeniably moving that she made it official and so this beautiful nonprofit was born. She believes that bringing joy into the lives of those who are facing hardship is one of the greatest gifts you can give.

I am a straight-shooting, fun-loving, and award-winning creative, who's all about making life an adventure. I live in East Stroudsburg with my husband where we've raised our 5 daughters as I expand Savvy Interior Design nationally.
